

My dear friend

I have rec^d your letter
I conclude it is better to
write to a few of our
friends who are most
likely to think of meeting
you than to insert any
thing in any paper which
20 to 1 would not be
seen by ~~except~~ those that
would think of going. I
must depend upon you to
let me know by mail when
you think of starting. I have
just been writing for the Standard
than nearly time for the
post - Yours ever truly
